The field visit to the G+10 building construction site was organized as part of the internship program to give civil engineering students hands-on exposure to structural design, construction techniques, safety practices, and project management. The visit aimed to bridge the gap between theoretical knowledge and real-world application. This site was arranged for 4th-year B.Tech students as part of their 8th-semester internship program, under the guidance of industrial expert Sri G. Siva Rami Reddy from Gambrel Engineers Pvt. Ltd.
