

A.Y. 2022-23
LIST OF ACTIVITIES

S.No	Professional Chapter	Type of Event	Date	Event Name	Participants	International/ National/ State	Guest Speaker details (if available)
1	Association of Consulting Civil Engineers India (ACCE)	Training Program	23-08-22	Hands on training program on “DGPS Survey” for Technicians	5	State	Sri.Abhay Kumar, Shivay Engineering, Mumbai
2	Association of Consulting Civil Engineers India (ACCE)	Internships	04-07-22 to 27-08-22	6 week Internship Program on “Geographical Information System”	72	State	<ul style="list-style-type: none"> • Dr.V.S.S.Kiran (CEO) • Jayantha Poddar(CTO) • Jay Prajapathi • A.Rajesh Kumar • Ritam Chakraborty, Garudalytics
3	Association of Consulting Civil Engineers India (ACCE)	Seminar	17-12-2022	Seminar on “Rebar and Anchor Connection Design & Profis Engineering Software Training”	15	State	Ankit Tiwari, Hilti Specification Consultant
4	Association of Consulting Civil Engineers India (ACCE)	Model Presentation	24-02-2023	Model Presentation Competition	20	State	Jury: Dr.K.Hanuma, Sri.A.Dattatreya

A Report on
Hands on Training Program for Technicians on
“DGPS Survey”
Organized by ACCE VRSEC Chapter

Date: 23-08-2022

Resource Persons: Abhay Kumar, Shivay Engineering, Mumbai

Audience: 5 Non-Teaching Staff

Description:

The main objective of the training program is to enhance the technical knowledge and practical skills of the non teaching staff in latest trends in civil engineering domain. Currently, DGPS surveying is the trending technology being adopted in the industry. The program was well planned such that everyone can hands on operate the DGPS individually. The schedule of the training program is as follows:

Timings	Resource Person	Description
10AM – 11AM	Sri. Abhay Kumar	Introduction of DGPS Surveying
11AM – 12:30PM	Sri. Abhay Kumar	Demonstration of DGPS to the participants
12:30PM – 2PM		Lunch Break
2PM – 5PM	Sri. Abhay Kumar	Hands on operation individually for all the participants

Outcome:

The technicians had gained knowledge and hands on experience in performing DGPS survey. This program helped the participants to enhance their skills by operating latest equipments irrespective of their specialization.

A Report on
6 week Internship Program on
“Geographical Information System”
Organized by ACCE VRSEC Chapter

Date: 04-07-2022 to 13-08-2022

Resource Persons: Dr.V.S.S.Kiran (CEO), Jayantha Poddar(CTO), Jay Prajapathi, A.Rajesh Kumar, Ritam Chakraborty, Garudalytics

Audience: 72 UG students

Description:

The primary goal of this programme is to improve the students' software skills in geospatial technology. This programme familiarises pupils with the ARC GIS software package. With this tool, students can manage, analyse, and visualise spatial data. They can utilise ArcGIS to generate interactive and informative maps for a variety of applications, including urban planning, environmental study, and corporate information. ArcGIS enables students to do spatial analysis to obtain insight into geographic patterns and relationships such as proximity, density, and spatial grouping. ArcGIS allows students to visualise geographic data using a variety of maps, charts, and graphs to efficiently express spatial information. It also assists with the collection and management of field data using mobile devices, allowing for more efficient data collection in the field.

Initially students were familiarized on GIS and its applications. Then they were introduced to the ARC GIS software. First couple of weeks, the students was trained on the interface and usage of basic tools. Later, they were trained on predefined projects and live projects. In the last couple of weeks students were divided into groups and separate projects were allotted to them. After the submission of the project, their mentors evaluated them and issued the certificates.

Outcome:

Students gained knowledge on geo special technology and hands on experience in used ARC GIS software.

LIST OF STUDENTS UNDERGONE INTERNSHIP AT GARUDALYTICS

SNO	REGISTER NO	STUDENT NAME	FROM	TO
1	178W1A0134	NANDETI SNEHA	04-07-2022	27-08-2022
2	188W5A0114	GATTA VISHNU VENKATA SAI RAM	04-07-2022	27-08-2022

A Report on
Seminar on
“Rebar and Anchor Connection Design & Profis Engineering Software Training”
Organized by ACCE VRSEC Chapter

Date: 17-12-2022

Resource Persons: Ankit Tiwari, Hilti Specification Consultant

Audience: 15 UG & PG students

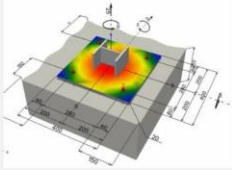

Description: The main objective of this seminar/training program is to enhance technical and practical knowledge of the students in rebar and anchor connections in steel and composite constructions. The program was planned such that students can learn the basics of anchor connection design and also learn Profis Engineering Software for designing the connections. The schedule of the training program is as follows:

Timings	Resource Person	Description
2PM – 3PM	Ankit Tiwari	Presentation on basics of rebar and anchor connection design
3PM – 4PM	Ankit Tiwari	Demonstration of Profis Engineering Software
4PM – 5PM	Ankit Tiwari	Hands on session with live examples

Outcome: Students had gained knowledge and hands on experience in designing the rebar and anchor connections in various situations. This program helped students to gain knowledge on various types of connections and design procedure which is beyond their curriculum.

**Velagapudi Ramakrishna
Siddhartha Engineering College**
 Association of Consulting Civil
Engineers (India) VRSEC student
chapter

is organising a seminar on
"Rebar and Anchor Connection Design"
 &
Profis Engineering Software Training

Resource Person:
Sri. Ankit Tiwari
 Hilti Specification Consultant

 Hilti India Private Limited

Date: 17-12-2022
 Venue: Computer Lab 2, Dept. Of Civil Engineering

A Report on
“Model Presentation Competition”
Organized by ACCE VRSEC Chapter

Date: 24-02-2023 (AFOSEC)

Jury: Dr.K.Hanuma, Sri.A.Dattatreya Kumar

Audience: 20 UG students

Description:

The main objective of this model presentation competition is to build the creative and innovative thinking of students. The program was planned such that students can create prototypes/working models of civil engineering domain and demonstrate them to the public. Participants from different institutions will participate in this event during the annual fest. Wide variety of audience will visit the events and discuss with the participants regarding their models. This stimulates the communication and presentation skills of the participants.

Dr.K.Hanuma and Sri.A.Dattatreya Kumar acted as jury and inspected all the models presented in the event. They interacted with the students and enquired the details about the model. The jury assessed the model based on problem identification, valid solution, novelty and innovation.

Prizes were issued to best two models.

Two batch students

198W1A0143 P YAMINI SINDHU

208W5A0113 M PURNA

Outcome:

Students had exhibited their ability in model making, problem solving and provided innovative ideas.
