

VR SIDDHARTHA ENGINEERING COLLEGE
Department of Computer Science and Engineering

Guidelines for Selection of Best and Average Projects

1. The titles of the best projects will be announced on the day of the external review of the 4th year major project by the three external panel members, consisting of two experts from academia and one expert from industry.
2. The titles of the best and average projects are announced on after successful completion of the external review.
3. Among all the 4th year major projects, ten of them will be awarded as the best and average projects, five in each in that academic year based on the following criteria:
 - a. Real world problem relevant to society
 - b. Problem definition – justification
 - c. Type of projects (Application/ Product/ Research)
 - d. Literature survey
 - e. Modeling/ methodology
 - f. Implementation aspects
 - g. Testing aspects
 - h. Success of the project.
4. Finally, the external panel members will submit assessment reports for these ten projects to the Department of CSE.
