2014-15

A 3-DAYS HANDS-ON ANDROID WORKSHOP

SWECHA in association with VRSACM and CSI will organize a three-day workshop on software development on Android, a popular mobile operating system, from Oct 20 to 22, 2014. Android App Development Workshop mainly focuses on how to use Android OS for building your own Android Application. Only the basic knowledge of programming is required for Android App Development, you do not have to be a geek for it! The workshop will start from the basics like designing layouts and building complex layouts. Once the basics of Android are done we will begin with building Apps. The duration of this workshop will be three consecutive days, with eight hours session each day in a total of sixteen hours, properly divided into theory and hand on practical sessions.
