IT - SUMMIT

7 SEPTEMBER 2018

This report summarizes the activities conducted in the SUMMIT on 7 September 2018

CULTURAL SUMMIT

Organized by Roopa, Sahithya, Likhitha, Chaitra

Spot Dance
The contestants are tested with their responding nature to the announcer, their willingness to dance suddenly and impress the audience.

The best dancer is announced as the winner.

Dumb Charades
Originally, the game was a dramatic form of literary charades: a single person would act out each syllable of a word or phrase in order, followed by the whole phrase together, while the rest of the group guessed. A variant was to have teams who acted scenes out together while the others guessed. Today, it is common to require the actors to mime their hints without using any spoken words, which requires some conventional gestures. Puns and visual puns were and remain common.

The team with the best team work and spontaneity will win the day

Songs
Songs are sung by many 2nd year students coming up themselves on their interest, on the occasion of last summit.

Winners

Spot Dance:
1) Hema Repani, III/IV
2) Aparna, II/IV

Dumb Chardes
1) Rachana II/IV
2) Rikhita II/IV

Singing:
1) Divya Burma, II/IV

CULTURAL SUMMIT

Organized by Mahesh, Anjana, Swetha, Anukruthi

Musical Chairs

Musical chairs is a game where a number of chairs, one fewer than the number of players, are arranged facing outward with the players standing in a circle just outside the chairs. Usually music is played while the players in the circle walk in unison around the chairs. When the music stops each player attempts to sit down in one of the chairs. The player who is left without a chair is eliminated from the game. One chair is then removed/eliminated to ensure that there will always be one fewer chair than there are players. The music resumes and the cycle repeats until there is only one player left in the game, who is the winner.

Stove less cooking - II

The stove less backcountry food list…sounds crazy, doesn't it? But sometimes I like to embrace a little challenge, especially if it involves further simplifying my backcountry meals.
Best chef with healthy, tasty, neatly organized recipe will bag the prize

Winners

Coding in C

Practical questions to program in C are given. The most efficient solution will be given 1st prize

Enigma

Enigma is a blockchain-based protocol that uses groundbreaking privacy technologies to enable scalable end-to-end decentralized applications. With Enigma, "smart contracts" become "secret contracts," where input data is kept hidden from nodes in the Enigma network that execute code. Without this functionality to protect sensitive data, blockchains and smart contracts are either useless or not truly decentralized.
A quiz was held on the basics of this concept
