**Important**  
**Part V is Mandatory**

**Each item should have supporting document submitted by the faculty.**

**Data formats with self appraisal will be created for each line entry and will be put on secure intranet**

1. API score is the **Appraisal Performance Indicator** score obtained from the Self Appraisal formats in Part – A and Part – B of the PBAS.
2. Minimum Score :This is the minimum score required to enable the DFAC to recommend for annual increment and /or promotion. For the year **2018-2019**, an overall **score of 550** is taken as the minimum cutoff mark. Also  
Minimum cutoff points should be attained for Teaching and Learning Processes (Part-1) and R&D (Part -3).  
**Note: For Professors and Assoc. Professors – They should publish at least one paper in Scopus or above listed journals every 2 years which is the minimum requirement.**
3. DFAC Score is given by the Chairman, DFAC, based on the Departmental Faculty Assessment committee (DFAC) assessment, constituted by the Principal.
4. DFAC report along with Summary Sheet should be signed by all the members and forwarded to the **Principal**.
5. **Principal generally concurs with the DFAC committee's API score** unless there is an obvious, abnormal and deliberate hike or lowering of API score or they receive a representation from the faculty member seeking justice.
6. Minimum scores indicated are **provisional** and will be decided by the FAB.
7. The PBAS formats are forwarded by the DFAC to the Principal along with summary sheets and are scrutinized meticulously by the **Appraisal Screening Committee (ASC)** comprising of **Principal as the Chairman, the DEANS as members and the Chairman DFAC as the member and submitted** to the Faculty Assessment Board (FAB).
8. Further, each faculty member should enter **the Self Score by the side of DFAC score box** and submit the same, **to the HOD**.

**Points: 5 points for every year of experience in the college and 2.5 points for experience outside the college, subject to a maximum of 50 marks will be given.**

For example, if a person has 5 years 4 months of experience in the college and 2 years 4 months of experience outside, then the computation is as follows:

$$(5.3 \times 5) + (2.3 \times 2.5) = 22.25$$

**Curriculum teaching learning Process file is required to be maintained by each faculty to include proofs for the following**

**If a faculty member is on maternity /medical leave in a semester exceeding 1 month, marks obtained in the other semester are to be entered in the total column instead of calculating the average of the two semesters. For new entrants also the same is applicable. This clause is applicable throughout the PBAS format for all parts.
