1. **Streamlining the Student projects emphasizing *Paper publications, Patents, Innovative models* development & *Start-ups.***

Recommendations to enhance the quality of student projects for publication

Opportunity:
As per the VR 20 regulations - 4 categories of projects.   1.EPICS, 2.Mini Project-1, 3.Mini project-2 & 4.Major project.

Recommendation:
Submission of Detailed Project Proposal (DPP) along with timeline and its possibility of publication, prior to the semester, to the Project Review Committee. Its Scrutinisation and approval with / without modification by the committee.

Marks Weightage:
Maximum for the Projects published in Scopus indexed journals / WoS / presented in Scopus supported conferences.

Assessment:
Assessment of progress of the work by the same committee as per VR17 / VR20, two times before final submission, focussing on possibility of its publication.
Note: *The presence of Guide before the committee is mandatory along with students.*

Corrective Measures:
Guides, who failed to publish min. two out of four projects, have to attend before Dept. level & Institute level R&D committees to identify the reasons for failure and find ways for improvement.

B) Issues open for discussion.

1. Streamlining the Student projects emphasizing *Paper publications, Patents, Innovative models* development & *Start-ups.*

Departments are advised to

1. identify the students who are active in taking up Innovative projects / patents /Start-ups. Encourage them with financial support by allotting suitable faculty, rather than conventional mode of allotment / seniority basis.

2. conduct Idea churning sessions by inviting Industry / Start-up / Alumni experts

3. extend their mini project to major for quality work with ample time and subsequent publication.

4. take necessary steps to involve and work all the students of a batch equally throughout the project as well as at evaluations.

5. take care for meticulous examination on the progress of the project at every assessment.

6. A batch less than 4 students is also allowed, if there is a best outcome. Since fixed no.of students in a batch is not mandatory.

1. Streamlining the Student projects emphasizing *Paper publications, Patents, Innovative models* development & *Start-ups.*

Encouragement / Appreciation / Recognition of Faculty & Students

Motivational schemes already in practice to encourage R&D

a) Training programs on quality publications, patents & start-ups
b) Seed grant support
c) Support for attending Workshops / Conferences, both at National & International level
d) Support for paper publication in Conferences to faculty & students
e) Financial support to students for Innovative model development & their exhibition.
f) Financial support for quality project works to students
g) Financial support to file patents & establish Start-ups
h) Incentive for quality paper publications.
i) Incentive for sponsored projects
j) Appropriate weightage in PBAS

Further, the IQAC is proposing the following practices to encourage the student publications

1. **Certificate of appreciation for students.**

2. **Display of batches with guide in Institute TVs for a week.**

3. **Certificate of appreciation for faculty, those who guide not less than two projects and publish them all, in a year.**

4. **Honoured in an annual event at central level, the faculty those who published all their student projects in two consecutive years.**

B) Issues open for discussion.

2. Annual planning & Implementation on
  **(a) Execution of Extension activities (NSS) in adopted villages focusing on *technical issues*
      in particular and getting solutions *with collaborations* of outside organizations,**
  (b) Securing ample number of *National & State level awards*.
