CIRCULAR

25/07/2020

YUKTI 2.0 is an initiative of MHRD's innovation cell and All India Council for Technical Education. It is focused on creating a national database of technologies and innovations along with their commercialization potential and also the startups from the academic institutes

YUKTI 2.0 encourages students, faculty and startups from all Higher Education Institutes to submit their innovation and technology to them.

You can make submissions through online mode. For this, create your YUKTI 2.0 account through our college AISHE code (C-18010) in the website <https://yukti.mic.gov.in/>

Following submission, YUKTI 2.0 will process the information provided by you by reviewing and approving by your organization and will get in touch to discuss the next steps.

Who can submit?

Student: Do you have a technology with commercialization potential? Share a technology disclosure with us and we will ensure that you get the right platform. (The technology should be greater than TRL6 level)

Faculty: Are you working on a technology with commercialization potential? Share the technology disclosure with us and we will ensure that you get the right opportunities. (The technology should be greater than TRL6 level)

Start-Up: Are you a student or faculty start up. Share the details with us to participate in this endeavor.

Incubators/Accelerators: Are you an Incubator/Accelerator, extending incubation support to Innovations/technologies/startups. Share the details about you and we will ensure you the outreach to Innovations/technologies/startups from academic institutions.

Organization/Industry: Are you organization/industry hosting events and programs on entrepreneurship and startups? Share with us details and we will ensure the outreach to best of innovations/technologies/startups from academic institutions.

Investor: Are you an investor? Work with us and we will provide the best of Innovations/technologies/startups in your interest sector.

How YUKTI2.0 will support?

Networking opportunities

Provides you the access to networking events and platforms for business.

Pitching opportunities

Pitch your idea before the investors.

Browse through the database

You will get access to the repository to know more about the technologies in interdisciplinary domains.

Reach out to your nearest Incubator/Accelerator

Will connect you to your nearest Incubator/Accelerator for incubation.

Find overlapping innovations in your field

Browse through the repository and get to know about the technologies already available in your field.

Funding Support

For incubation of technologies, funding support will be provided after a selection process.

Opportunity for International Start-up Exposure

Compete to be in our International Start-up Exposure programs.

Talk to mentors and Learn

Learn from experiences of our experts' and mentors' team.

Note: YUKTI 2.0 will not ask IP writes of your technologies.
