Guest Lecture on "Big Data & Intelligence"

Title of the Guest Lecture: "Big Data & Intelligence".

Organized By: Department of Information Technology.

Organized On : 05th August, 2019

Programme Coordinators:

Dr.A.Srisaila, Assistant Professor

Department of Information Technology,

V R Siddhartha Engineering College, VJA-07

Resource Person:

Mr. Siva Kishore Vadugu,

Technical Architect,

Infosys, Germany

Objective of the Workshop

- To inculcate a deep understanding about the big data how they solve the new problems and old problems in a better way.
- To analyze the data about how it is characterized by some examples.
- To analyze the raw data in order to make the conclusions about that information.
- Case studies about GDPR : General Data Protection Regulation

Study Material

- PPT's by resource person that elaborates the concepts of big data intro, big data facts, analytics and data science and some case studies.

Brief Report on Guest Lecture which covers, targeted group, no. of participants, outcome, feedback from the participants, expenditure incurred from the Programme etc.,

The Department of Information Technology, V R Siddhartha Engineering College, has organized a Guest Lecture for students on "Big Data & Intelligence" on 05th August, 2019.

Mr. Siva Kishore Vadugu, Network Lead from Wipro Technologies pvt. Ltd is the resource person for this two day workshop. The Faculty members from our department and Students from B. Tech III year had participated actively in the Workshop. Mr. Siva Kishore Vadugu enlightened the students and faculty on what is Big data, facts , concept of Analytic and Data Science with some case studies.

In this workshop, the speaker mainly discussed about the concepts of Big data about what is big data and about the organizations which were embrace it were online and startup firms that were built around big data from the beginning. A brief discussion of Machine learning languages like R, Python, SQL for data access, SAS and MATLAB has been discussed.

The keynote speaker majorly focused on current data volumes, devices that are used for generating the data. Also focused on big data facts that how much data is created and analyzed and put to use. The workshop inculcated the participants with various types of organizations that are acted as data generators.

The speaker also addressed about the Data analytics which focuses on understanding the past; what happened, why it happened and what will happen next. He also elaborated on the applications of Data analytics and what are the languages used. The workshop helped the faculty in learning the skills and techniques required to meet the objectives of the Project. The students were very interactive with the resource person. The resource person also discussed about the higher studies of the students in abroad that they have to prepare to get the admission in a good university. The students were asked to post the queries to know about the universities for higher studies.

Targeted group:

- Participants in the workshop are internal faculty from Information technology departments.
- All 3rd Year students of IT Department.

Number of Participants (Total: 130) --> (Faculty – 10, Students – 120)

- Ten faculty from VRSEC
- Third Year IT students, Enclosed in the form of Attendance Sheet

Workshop Outcome:

- Participants have learned the concepts of different Monitoring and Ticketing tools in the Real Time Environment.
- The faculty and students has motivated to do research work and projects in the area of big data and Analytics.
- Participants have understood the importance of Data Science and analytics.

Feedback:

- Feedback is taken on the aspects: about the guest lecture and topics in the session.
- Feedback forms were distributed and collected at the end of the lecture.
- Received a positive feedback about the guest lecture.
- Feedbacks are enclosed.
