

DEPARTMENT OF MECHANICAL ENGINEERING
V R SIDDHARTHA ENGINEERING COLLEGE- KANURU-
VIJAYAWADA

22-12-2020

The department of Mechanical Engineering conducted a webinar on “Impact of Plastic Waste on Society” on 18-12-2020 in association with Internal Quality Assessment Cell (IQAC) . Mr. Ramappa Siddi, Assistant environmental engineer, Pollution Control Board-Telangana, Hyderabad, acted as a resource person. The objective of the program is to create awareness among the students and faculty on plastic waste usage and its harmful effects. Total 64 number of students and faculty attended to the program.

Co-ordinator

1. Mr. CH. Venkata Prasad - Assistant Professor

HOD-ME
Professor & Head

Webinar on Impact of Plastic Waste on Society

on 18/12/2020 from 10:30 AM to 11:30 AM

by

Mr. Ramappa Siddi

Assistant Environmental Engineer,

Telangana State Pollution Control Board - Hyderabad

Organized by

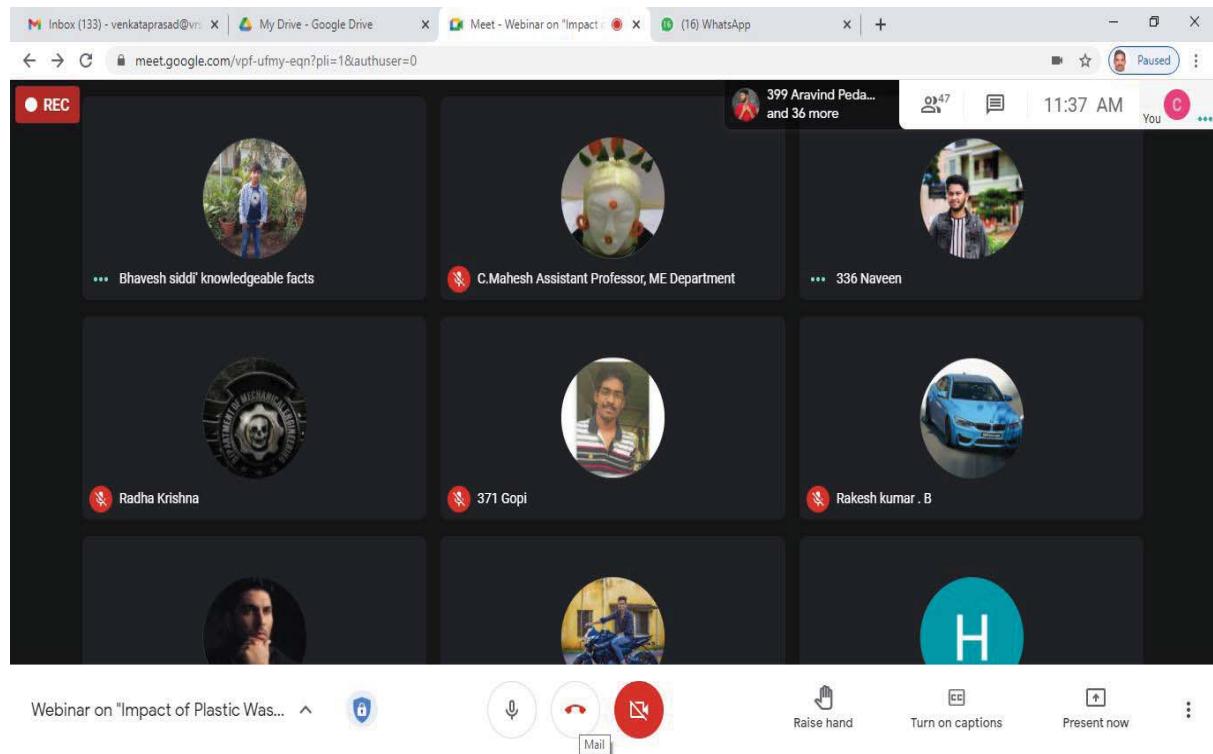

Department of Mechanical Engineering

in association with Internal Quality Assurance Cell (IQAC)

The screenshot shows a Google Meet interface. On the left, a video feed of a man wearing glasses and a plaid shirt is displayed, with a red 'REC' button in the top-left corner of the video frame. On the right, a participant list titled 'Webinar on "Impact of Plastic Wa...' shows 47 participants. The participants listed include:

- 3F6_Chaitanya Konda
- 3G8- Karthik Surya
- 3G9-Potharanka Mahesh
- Bhavesh siddi' knowled...
- C.Mahesh Assistant Pro...
- chokkapu karthik
- Dr Venkateswarlu Alapati
- Dr.M.Sumalatha Assista...
- HARI KRISHNA DOKKU
- Ismail shaik

At the bottom of the screen, there are various control icons for the meeting, including a lock, microphone, camera, raise hand, turn on captions, present now, and a three-dot menu.

A screenshot of a Google Meet webinar interface sharing a presentation. The title of the presentation is 'What is Plastic?'. The slide content includes a bullet point: '• A synthetic material made from a wide range of organic polymers such as polyethylene, PVC, nylon, etc.,'. On the left, there are buttons for 'sharing your screen', 'Stop sharing', and 'Hide'. At the bottom, there are controls for microphone, video, and sharing, along with buttons for 'Raise hand', 'Turn on captions', and 'Present now'. To the right, a sidebar shows a list of participants: 'People (63)' and a list of names with profile icons. The names listed are: '3B9 Vallabhaneni Rakesh', '3F6_Chaitanya Konda', '3G9-Potharanka Mahesh', 'Anusha Puritipati', 'bhavana chintna', 'Bhavesh siddi' knownled...', 'Bhavesh siddi' knownled...', 'C.Mahesh Assistant Pro...', and 'chokkapu karthik'. The title bar at the top right shows 'Paused' and the time '11:37 AM'.

REC

Once they are used, most bags go into landfills. Each year, more and more bags are ending up littering the environment. Once they become litter, plastic bags find their way into our waterways, parks, beaches, and streets. And, if they are burned, they infuse the air with toxic fumes.

REC

Effect on Plants and Animals

About 100,000 animals, such as dolphins, turtles, whales, penguins are killed every year due to these bags. Many animals ingest plastic bags, mistaking them for food, and therefore die. And worse, the ingested plastic bag remains intact even after the death and decomposition of the animal. Thus, it lies around in the landscape where another victim may ingest it.

REC

When Can It Become a Problem?

Careless disposal of plastic bags chokes drains, blocks the porosity of the soil, and causes problems for groundwater recharge. Due to its non-biodegradable nature, littering of plastics causes irreversible damage to the environment.
