Dear Sir/Madam,

Sub: Workshop on "CLOUD COMPUTING THROUGH AWS" in Collaboration with APSSDC 29th -01st July, 2019

We are glad to inform you that the CSE Department is organizing a Workshop on "CLOUD COMPUTING THROUGH AWS" in Collaboration with APSSDC during 29th July - 01st August 2019 for the second year students.

Cloud computing gives you access to servers, storage, databases, and a broad set of application services over the Internet. A cloud services provider such as Amazon Web Services, owns and maintains the network-connected hardware required for these application services, while you provision and use what you need via a web application.

We look forward to your whole hearted cooperation in making this workshop a grand success.

Thanking You,

With kind regards,
Dr. D. Rajeswara Rao
Convener

Mr V Roopesh Kumar, currently working as an Associate Cloud Engineer, APSSDC and **Mr CH Rama Krishna**, currently working as Associate Cloud Engineer, APSSDC acted as the resource persons for this workshop. Mr Mr Lova Babu J, Trainer and Developer, AWS Educate has also joined the training program and helped the students during the hands-on sessions.

Cloud computing gives you access to servers, storage, databases, and a broad set of application services over the Internet. A cloud service providers in the market which holds maximum share in the cloud market with high success rate was Amazon Web Services (AWS). AWS owns and maintains all the infrastructure required for the cloud users mainly providing IaaS as their main service.

The workshop is intended to give an awareness to the students on how cloud started and about the importance of the cloud in the day to day application basis. The Main focus of the workshop is to work with cloud computing on the platform called Amazon Web Services (AWS).

Day1 started with a power point presentation on what is cloud, how cloud works and what cloud

provides.

After the basic PPTs, students were moved to practical session on cloud in the lab.

In day1 afternoon session, students are introduced to AWS platform and were made to register to the platform. They were asked to complete online courses which are collection of videos briefing about cloud, networks etc. Day2 started with usage of the AWS services provided like creating

Report on Workshop

and using servers on cloud with EC2. In the afternoon session, AWS S3 was introduced to students to provide environment to use storage space online.

The common points highlighted in this workshop of “Cloud Computing through AWS” are:

- What is cloud computing?
- Applications of Cloud Computing
- Introduction to AWS
- Services provided by AWS
- Practical Orientation on AWS cloud
- AWS EC2 and S3 Introduction and Implementation

Sir,

Department of **Computer Science and Engineering**, V R Siddhartha Engineering College is proposing to conduct a training program on AWS Cloud Computing for our Second year students. As per our conversation on the phone, I am sending this email to formally request you to depute your trainers as resource persons of this workshop. As per your suggestion, we are going to conduct the workshop for our students in **two batches (approx 60 students per batch)** and two days for each batch. Hence, we require your trainers to conduct the classes and provide training from **29th July to 1st August 2019**.

Please confirm the trainers details including their biodata, so that we can make necessary arrangements. Thank you very much for your support.
