 - All septic tanks are to be connected to collection tank of STP.
 - 100 KLD STP is recommended

- The treated effluent can be used for gardening and excess of it may be used for ground water recharge.
- It is also recommended to harvest Rain water for the ground water recharge.

> RECOMMENDATIONS FOR CANTEEN WASTE DISPOSAL

- ❖ The Vegetable scrape, left over rice, coocked food, Teacups, snack covers, tetra packs, pet bottles, milk packet vocers, aluminum tins of canteen waste are accumulated till the weekend and it is openly burnt using used cooking oil.
- ❖ The burning of wide range of waste (plastic pet bottles, wrappers, tetra packs and decomposable organic matter) emits harmful air pollutants and pollutes the campus environment.
- Natural organic manure preparation: The decomposable food waste is mixed with dry leaves and cut grass t make natural and organic manure through composting.
- The same can be used as natural fertilizer for gardening in the campus.
- * Reduction in chemical fertilizer.
- Non decomposable matter like pet bottles, milk packet covers, aluminum tins, etc may be handed over to rag pickers.
- ❖ Otherwise some arrangement can be made to collect the non decomposable waste with the local panchayat.

> RECOMMENDATIONS OF SOLID WASTE MANAGEMENT

- Separation of solid waste before disposal is recommended.
- Composting is recommended instead of open burning.
- The compost maybe used as natural fertilizers instead of chemical fertilizers.
- ❖ The committee recommends banning the usage of plastic glasses / Non − decomposable plates / flexi-banners in the campus so as to be a role model to other educational institutions.
- Student involvement through "student Environmental clubs" is recommended to maintain clean and green campus.
