## DEPARTMENT COMPUTER SCIENCE AND ENGINEERING

### Report on "Intellectual Property Rights (IPR) & IP management for startup"

1<sup>st</sup> April 2021

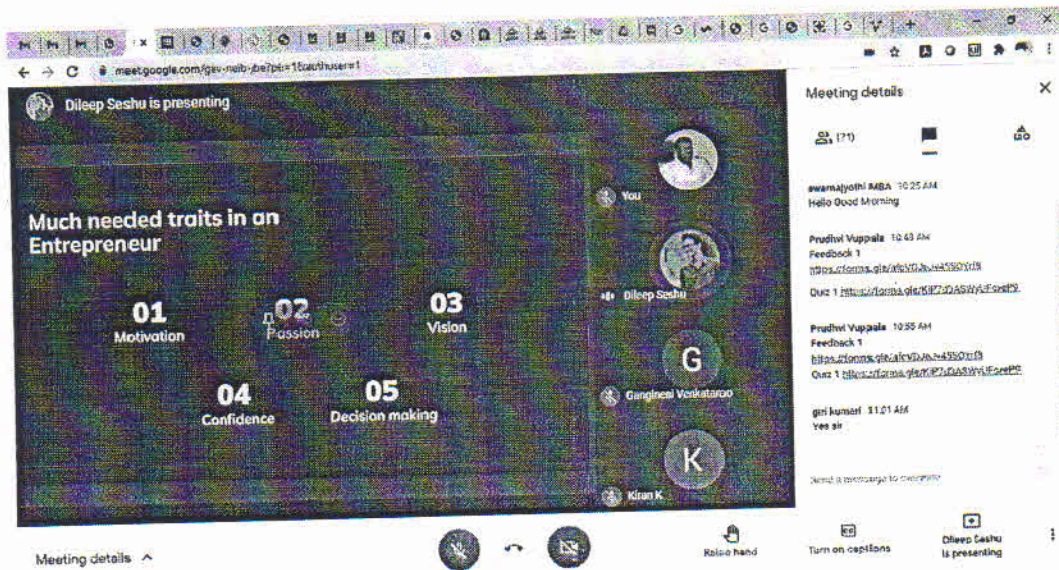

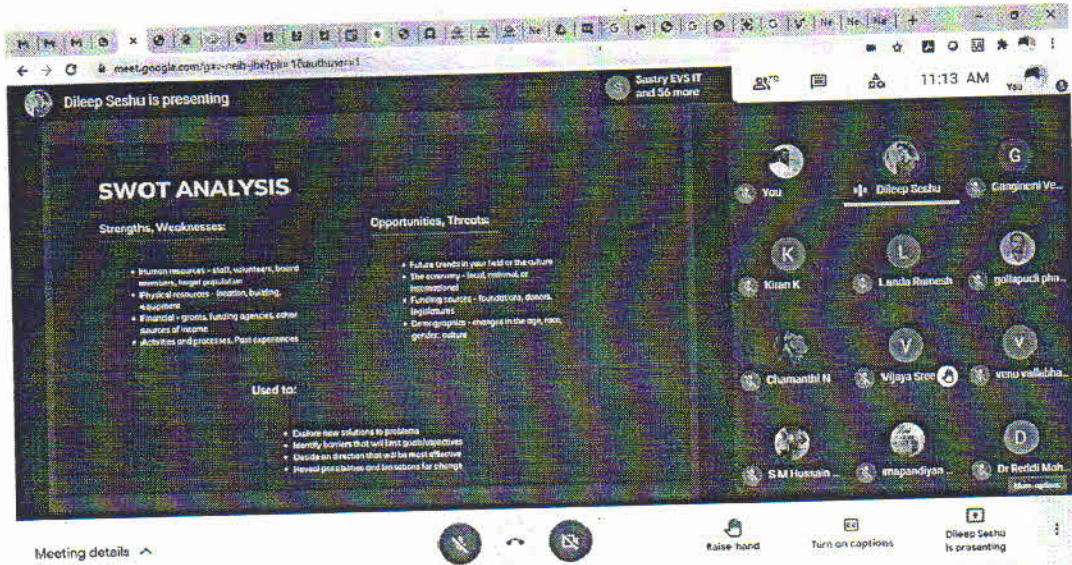

#### **Purpose of the workshop**

Intellectual Property Right plays a key role in gaining advantages position to promote preserving the innovative thoughts of VRSEC students. India enjoys a large asset of R&D personnel and infrastructural facilities. Scientists and policy makers need more information, orientation and facilities for protecting the products of intellectual prowess of Indian Scientists.

Intellectual property is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. It also includes other types of rights, such as trade secrets, publicity rights, moral rights, and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can all be protected as intellectual property. The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. An intellectual property right refers to the general term for the assignment of property rights through patents, copyrights and trademarks. These property rights allow the holder to exercise a monopoly on the use of the item for a specified period.

#### **The following topics were covered.**

- Intellectual Property Rights(IPRs) - An Introduction with need of its protection
- Copyright and Trademark Management in India with case studies
- Ethical Issues related to Clinical Trials and IPR
- Patenting of pharmaceutical compositions and medical devices – Guidelines
